

Sanjeevani

AI-Powered Preventive Healthcare
Ecosystem

Vision

- Build India's AI health companion focused on families, wellness, prevention, and emotional healthcare.

Problem Statement

- Health tracking apps are generic, lack emotional engagement, poor Indian food intelligence, and weak family health integration.

Solution

- Sanjeevani combines AI coaching, family monitoring, food scanning, wellness analytics, emotional AI, and predictive healthcare.

Core Features

- AI Health Coach
- AI Food Scanner
- Family Health Hub
- Sleep & Stress Tracking
- Emergency SOS
- Health Reports AI

Advanced AI Features

- Predictive health risk analysis
- Regional language AI
- AI emotional wellness
- Voice assistant
- Health gamification

Gamification & INTVL Inspired Features

- Health territories
- Daily missions
- XP points
